TRUE

passion

Aluminio
pur

UNICA FABBRICA che può fornire una Cucina completa ed omogenea in ALLUMINIO PURO, pesante, montata in bronzo.

LA
"MIGLIORE
MARCA"

Baldassare Agnelli,

The long-time "Made in Italy" professional cookware factory, was already producing a century ago the wonders of aluminum to the general public of the modern era.

Good food and *l'art de la table* were literally revolutionized by the advent of a noble, light, multifunctional and futuristic metal as our aluminum.

In the 30s, the Baldassare Agnelli Collections reached perfection, with the best thickness measurements and the finest finishing touches.

So it is with pride that we introduce the *Baldassare Agnelli Collezione 1932* (1932 Collection) to a public which is composed of some good food estimators.

USEFUL
• REALLY GIVEAWAYABLE •

Baldassare Agnelli,
the long-time "Made in Italy"
professional cookware presents
Collezione 1932,
a collection of small valuable pots
which mark a new way to "write"
and to serve recipes to guests, to good food
and art de la table lovers.
But, also, a new way of thinking
about gift ideas, home furnishings and kitchens.

the
famous
COOK'S
— WAY —

A plate which will not burn,
with a pan containing food at the top...
and this is how the magical ritual is served!

With Collezione 1932
you can perform great cooking at you own home,
just like they do at the mot blazoned restaurants,
where chefs present their most famous dishes
by walking up to customer's table
with the preparation served inside the
cooking tool, in a single portion.

Enjoy your meal!

≈ ALL! ≈

Collezione 1932 collection includes different “pieces” of cleverness among its series: saucepans, stewpans and pans with a reduced diameter.

In particular: two-handle pans, high and low stewpans, both available with a one or a two-handle grip, high and low flared pans.

ALUMINUM
— and in —
NON-STICK
CERAMIC WHITE

Collezione 1932
is made of pure aluminum for food,
with a 3mm-professional thickness.
It comes in two beautiful finishing touches:
the first is in pure aluminum,
while the second in a special and really resistant
non-stick Whitford ceramic white.
With Collezione 1932 you can obviously
cook or “finish up” cooking anything.
