

GUÍA DE CESTAS PARA COPAS Y VASOS

2024

CAMBRO
TRUSTED FOR GENERATIONS™

dbmark

A continuación tiene los modelos de copa más usuales en España.

Al igual que los carros de platos, las cestas de lavado de **CAMBRO** son la mejor opción para el cuidado de su cristalería. Sus características exclusivas le permiten cumplir cinco importantes misiones:

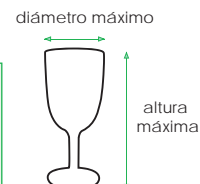

- Lavado: espacios interiores muy amplios para una perfecta circulación del agua y del detergente dentro de la cesta.
- Protección: extensores y divisores que protegen la copa en toda su altura y evitan que choquen unas contra otras.
- Transporte: paredes exteriores cerradas que evitan que entre suciedad y polvo durante la manipulación y almacenamiento.
- Almacenamiento: las cestas de paredes cerradas se apilan unas sobre otras, formando un perfecto armario sobre el que se coloca una tapa. No se necesita funda.
- Clasificación: DBMARK es la única empresa que le ofrece 12 colores para clasificar e identificar fácilmente la cristalería que contiene cada cesta.

Clasifique su cristalería por colores, eligiendo entre los 12 que le ofrece **DBMARK**

108 110 119 151 163 167 168 180 184 186 414 416

No olvide añadir una tapa y un carro.
