# Durability, Safety and Longevity

The Camshelving® GN Food Pan Trolleys represent a major product evolution for bulk food holding and transport. Unlike the wide array of metal trolleys in the market, these trolleys will never have failing weld points, dented frames or sharp metal edges, hard to clean corners, rust and corrosion or damage beyond repair. Every single part is replaceable for a lifetime of service. Constructed of similar composite materials as Camshelving with easy to clean smooth surfaces and high performing features, these trolleys are guaranteed to provide end users with years of unparalleled performance and value.

## ENHANCED FOOD SAFETY, EXPANDED USAGE

Unique top frame supports 1 or 2 GN 1/1 food pans to protect contents below during storage and transport. Or use a GN 1/1 cutting board to create a light duty prep station (GN 1/1 Half Size Trolley only).

## EASY TO CLEAN

Impervious to food acids or harsh chemicals. No sharp corners to collect hard to clean food residue and grease. Wipe clean or pressure wash.

## MOLDED IN PAN STOPS

3 mm (0.12") pan stops at each rail end provide stability during transport.

## FULLY ACCESSIBLE

End or side load design with no middle crossbar provides unobstructed access to contents.

## RAIL SPACING

Wide 7,6 cm (3") rail spacing offers greatest versatility and ease of use.

## VERSATILE PERFORMANCE

Use in kitchen, freezer or cooler. Hold hot pans from oven up to 200°C (392°F). Transport on or off premises.

## COMPACT, HIGH VOLUME STORAGE

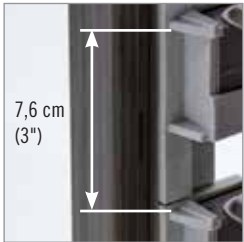

Free up valuable shelf space in coolers or freezers. Optimize air flow around pans for cooling or thawing large quantities of food.

## STABLE, SMOOTH MANEUVERABILITY

Solid top and bottom locking frames combined with 4 premium plastic casters provides a quiet, smooth gliding trolley that easily maneuvers anywhere.

## PREMIUM CASTERS

Heavy duty 12,7 cm (5") casters with non-marking thermoplastic rubber wheel are all swivel with total locking brake. Brake locks both swivel and wheel.

## Weight Bearing

<b>Per Rail Set</b>	All Units	45 kg (100 lbs.)
<b>Per Unit</b>	Full Size	340 kg (750 lbs.)
	Half Size	170 kg (375 lbs.)

## Holding Capacity

GN 1/1, 6,5 cm (2½") deep

<b>Full Size 1/1</b>	End Load	18 each	1 pan per rail set
	Side Load	36 each	2 pans per rail set

## Quick And Easy Assembly
