A photograph of a restaurant table set with various dishes. In the foreground, there is a blue plate with a pasta dish featuring shrimp, asparagus, and tomatoes. To the right, a white bowl contains dumplings. In the center, a wire basket holds several golden-brown bread rolls. Behind it, a blue plate is filled with a salad of shredded lettuce, carrots, and other vegetables. Several glasses are on the table, including a tall glass of water with ice, a martini glass with a drink and a garnish, and a glass of iced coffee with a lime wedge. The table is set with blue plates and silverware. The overall lighting is dim, creating a warm, intimate atmosphere.

# Minski

NSF

Developed through a painstaking process, we perfected the intricate rim texturing chefs and guests have loved for years.

The design offers a porcelain-like glossy finish and an attractive plating area with a lovely edge that avoids sauce runoff. Heavyweight bodies carry enough heft to feel luxurious but still lighter weight than porcelain.

Minski's beautiful bright white aesthetic is the perfect match for nearly any menu and offers the flexibility to serve indoors or outdoors.

A photograph of two glasses filled with a red, bubbly beverage, likely a cocktail or juice. Each glass is garnished with a slice of lime. The glasses are placed on a light-colored, textured napkin. The background is dark and out of focus, showing more of the same beverage. The word "drinkware" is overlaid in white, lowercase letters across the center of the image.

# Textured Tumblers

In our increasingly complex world, textured tumblers offer us a window into simpler times. Perfectly classic and timeless in style, these tumblers remind us of outings to the pizza parlor, mini golf, the deli around the corner where we'd gather with friends over fun, food and drink. The textured surface helps hide fingerprints and scratches, too!

## Special Sweet or Savory Applications

Express yourself by using select drinkware to serve small or large bites and delight your guests with presentations that are anything but ordinary.

Shot glasses double as vessels for mini desserts, flights of shrimp and oyster shooters, hummus dippers and beyond, creating versatility that improves operational simplicity, too.

Serve irresistible over-the-top sundaes, classic floats or boozy milkshakes in cone-shaped cups or Instagramable jumbo stemware. Your guests will love every second!

# Jumbo Stemware

Ideal for Instagram, Jumbo Stemware provides operators with stylish, entertaining vessels to serve cocktails and enormous desserts or to create head-turning displays. And with martinis, margarita glasses and schooners, you have the variety to accommodate sweet and savory applications.

The biggest benefit, however, is safety. Other large stemware is made from glass, which is top-heavy and slippery, making shatterproof plastic construction the safer choice.

A photograph of various pastries and chocolates on trays, with the word "display" overlaid in white text. The image shows two white trays filled with colorful macarons and assorted chocolates. The background is dark and slightly blurred, suggesting a display case or a counter. The word "display" is written in a large, white, sans-serif font across the center of the image.

A multi-tiered white display stand is shown against a dark background. The top tier holds three small round cakes with white frosting and fresh berries. The middle tier holds two round cakes, one with a dark top layer. The bottom tier holds several rectangular layered cakes with red frosting and white cream. In the foreground, a white tray holds several round pastries, some with red and some with dark frosting. The entire scene is dimly lit, with the display stand being the primary light source.

# Minski

NSF

Developed through a painstaking process, we perfected the intricate rim texturing chefs and guests have loved for years.

The design offers a porcelain-like glossy finish and an attractive plating area with a lovely edge that avoids sauce runoff. Heavyweight bodies carry enough heft to feel luxurious but still lighter weight than porcelain.

Minski's beautiful bright white aesthetic is the perfect match for your banquets and buffets, and offers the flexibility to serve indoor or outdoor.

# Pottery Market Glazed Brown

NSF

With true artisanal pottery style and just a touch of glaze for a smooth surface, Pottery Market Glazed naturally frames your display, banqueting and buffet presentations as scratch-made.

The dark brown plating areas and beige rims create a striking counterbalance for bright and colorful creations like veggie-centric dishes, creamy sauces and Instagram-worthy desserts.

# metal display cookware

Build dynamic displays with Heiss induction-ready cookware, the chef-friendly alternative to traditional enameled cast iron.

Made from cast aluminum, Heiss is 1/3 the cost and weight of cast iron and offers a more even heat, unburdening staff and increasing safety due to lightweight pieces.

## 1/3 the Cost & Weight

- Traditional enameled cast iron is understandably popular but it's dangerously heavy for a commercial environment and unrealistically expensive
- Made from cast aluminum, Heiss cookware is 1/3 the cost and weight of cast iron, freeing up budgets and improving staff safety

## Durable

- Heiss cast aluminum bodies not only offer more even heat than traditional cast iron, they heat and cool more rapidly too, making setup and breakdown safe, easy and fast
- Enjoy a lengthy in-service life with proper care and maintenance; see the details in the maintenance section

## Style & Choice

- Get the same coveted cast iron look to distinguish your banquets and action stations for significantly less investment
- The comprehensive Heiss line includes pieces ideal for individual entrée service, side dishes, buffets and open kitchen concepts

# Heiss Antique White

The newest color for the Heiss collection, Antique White offers a trendy, food-friendly neutral that makes food pop.

This cozy color adds charms to any décor and speaks to the resurgence of farm-fresh ingredients and vintage recipes.

displayware

Handcrafted by skilled artisans in Mexico, each Bugambilia® piece begins life as an artist's sketch with the sole purpose of building exceptional guest experiences with exquisite displayware.

From casting to coating, Bugambilia® blooms in the caring hands of its artisan creators before finding its NSF-certified place in your foodservice operation.

## Foundry-to-Table Artisanal Displayware

### Unparalleled In-Service Life

Products built with true craftsmanship always offer the best in-service life, and Bugambilia® is no different.

In fact, the resin adhesion process was so painstakingly created, it's patented.

### Operational Efficiency

Bugambilia® keeps up with your operational needs because of its expert craftsmanship. The cast aluminum body and resin coating offer the best temperature retention, keeping your food within the temperature safety zone longer than stainless steel pans and other similar resin-coated products.

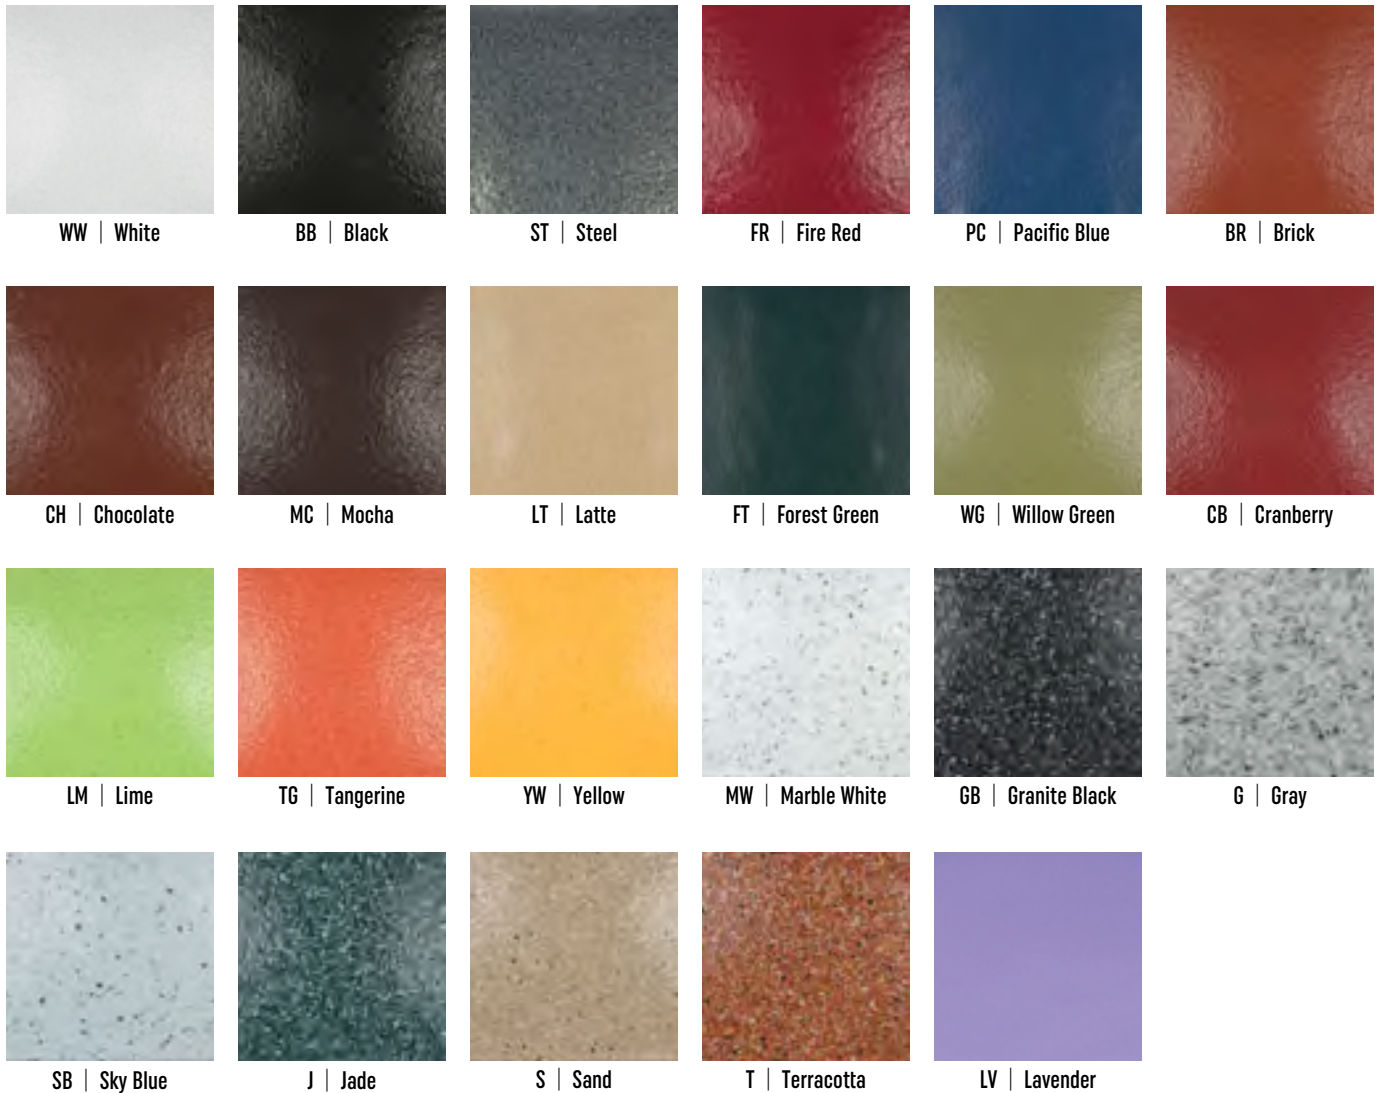

### Customized for You

Even better, because each piece is individually crafted, creating custom pieces is a breeze! Partner with us to develop unique pieces and tell your brand story the way only you can.

# Bugambilia® Color Swatches

Unless noted, all products stocked in Classic White (WW). Allow 3-4 week lead time for all other colors.

## Resin-Coated Finishes

Bugambilia® items can be ordered in two finishes, the Classic texture or the glossy Mod finish.

To order Mod finish, add **-MOD-** to item numbers. For example, BOD02-MOD-WW.

# How Does the Fit Perfect™ System Work?

## ADAPTER BARS

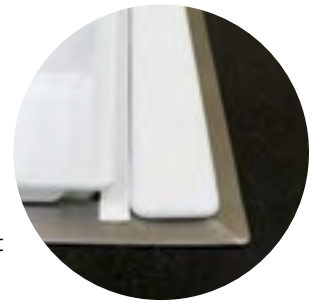

These patent-pending bars securely lock Fit Perfect™ pans into the majority of cold wells.

You'll need adapter bars to build your layout's main support system

## GAP BARS

Because not all wells are the same length, you may need gap bars to fill any spaces in your layout.

Wider than adapter bars, gap bars help seal wells to prevent cold air from escaping.

## Set Up Your Adapter Bars

Once you know your layout, set your adapter bars into your well widthwise, allowing enough space in between to match the width of your food pans.

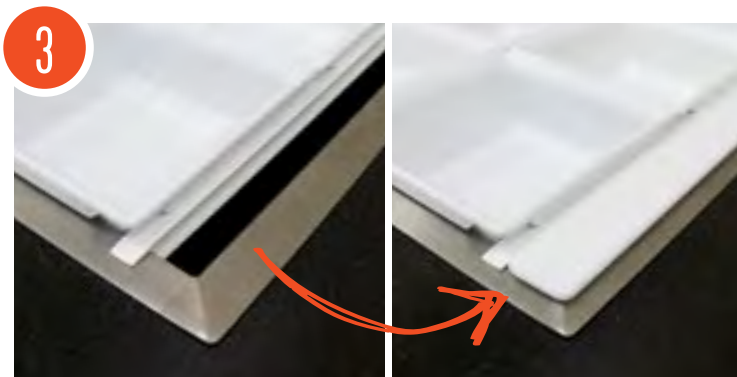

**NOTE:** Fit Perfect™ works with the majority of industry cold wells. For wells with interior width range of 19.75" to 20", use CIHSPC21-WW adapter bar. For wells with interior width range of 11.88" to 12", use CIHADP12-WW. Contact us for wells with rounded corners.

## Set Your Food Pans in Place

Place the lip of the Fit Perfect™ food pan over the ridge on the adapter bars to lock food pans in place.

**❄️ PRO TIP** Pre-chill empty Bugambilia® resin-coated aluminum products in your walk-in when not in use to maintain food's freshness and reduce waste.

## Mind the Gaps

If a layout leaves any uncovered spaces, just fill them in with the gap bar to keep cold air from escaping and complete the seamless look.

**NOTE:** Not all standard wells are the same length. Knowing the overall length of your well will help to determine what size gap bar you will need.

Gap bars are available in 1", 1.5", 2", 2.5", and 3" widths

The variety of shapes, sizes, and colors allow us to be creative as well as cost-effective with volume production portion control with salad choices. All the items we carry are heavily used on our banquet events, and we have a ton of banquets. Their strongest point is the fact of wear and tear. ## Sturdy Foundations for Professional Service

Perhaps the most underappreciated tools for full-service professionals, tray stands and trays are the foundation of tableside food delivery.

Our tray stands offer excellent durability and stable bases and tops that keep food trays in place. Choose from eco-friendly hardwood sourced from plantation-grown retired rubber trees or extra-lightweight chrome metal stands.

The ultimate symbol of hospitality and pampering: Tray service makes everything look more enticing. You will find upmarket options ideal for tableside and room service, and non-skid trays in rounds, rectangles and ovals that prevent slippage.

## Guest Dining Trays

Convenience, choice, style and durability: Our guest dining trays offer all of this and more.

Classic wood and faux wood plastic trays offer upmarket service for in-room dining and luxurious room service.

Affordable and convenient school compartment trays are available in a range of vibrant colors and durable materials.

Or choose from trays ideal for café, dining hall and cafeteria settings for a self-serve option.

On a stovetop, always use the burner nearest in size to your Heiss cookware

Always add water or oil before heating - never heat empty

Always use soft cloths, sponges or brushes to scrub - never use harsh scour pads, steel wool or other similarly harsh materials

Do not overload dish racks - properly space items for optimal cleaning

Don't stack one Heiss directly on top of another when storing: Flip your lid! Turn the lid upside-down, place another Heiss on top of the lid, then repeat until you're four tall

Always protect your hands with oven mitts when handling hot Heiss, including lids

Never use with granulated dish detergent

Never use cleaning products that contain bleach

Heiss is safe to wash in a hi-temp or low-temp commercial dishwasher

Pre-soak often (every other week) for at least 2 hours or overnight. Recommend testing on one vessel prior to pre-soaking all inventory to ensure no discoloration occurs

Dishwasher safe for high or low temperature machines

Angle opened containers at 30° in a peg dish rack for thorough sanitation

Always use a bleach-free detergent

Use a special rinse aid designed for plastic

G.E.T. recommends Ecolab's Rinse Dry™

This Rinse Aid is specially designed to sheet rinse water off faster from any plastic to speed drying and is very effective with Eco Takeouts.

If a drying agent is not an option, plan time for them to dry before stacking as plastic naturally dries more slowly than porcelain and glass
